k. **Description of Request:** The licensee requests a temporary variance of its flow release limit requirement from Pyramid Lake. Specifically, the licensee proposes to temporarily forego its maximum limit for annually delivering water to the United Water Conservation District (United) between November 1 and the end of February via middle Piru Creek from Pyramid Dam. The licensee proposes to temporarily increase this requirement from the current limit of 3,150 acre-feet of water per year, to no more than 25,000 acre-feet. The licensee proposes to deliver their supplemental water to United through middle Piru Creek from Pyramid Dam from November 1, 2023 through February 29, 2024. The licensee requests the variance in order to utilize excess water accumulated during multiple rainstorms in early January 2023 to improve groundwater conditions in the local area, which have been severely depleted due to ongoing drought conditions and restrictions on United's diversion facilities.
